

This high quality food depositor is available with a 100 litre hopper. It provides damage free depositing of hot or cold liquid, semi-liquid and suspended solid products

Our high quality Series Four is predominantly supplied as a fully automatic in-line depositor for use with a conveyor. It is also available as a semi-automatic unit with a height adjustable filling table and foot pedal operation.

This robust depositing machine accurately fills most types or sizes of container including jars, bottles, pots, tubs, ready meal trays, cake tins, foils, buckets, cartons, jerry cans, pouches and bags.
